
Naviextras Toolbox 3.18.5 Download [BETTER]

Download

alpine.naviextras.com is the official map update portal for alpine. some alpine.com site features, including buying updates, require that your alpine navigation device is registered. please register your alpine navigation device and your required personal data within naviextras toolbox, which is a free pc-tool. alpine.com i have not had any problems with naviextras until yesterday. i started the naviextras toolbox and when it was opened, it gave me this error message: an error occurred: the file is a corrupted or an unsupported format. naviextras toolbox may not run properly. the most common reason for this error is that your map update file or map update package is corrupted. to continue, please repair your map update file to repair your map update file, follow these steps: boom! box gts toolbox for jaguar and explorer (mac) - for ford devices to use the boom! box's map updates - maps for jaguar and explorer can be downloaded here. the jaguar and explorer map can only be installed via the jaguar and explorer software, respectively. while you have selected a new map for the gts in the boom! box gts toolbox and saved it in the new map you want to use, you also have the option to choose to "use the map that is currently used for your navigation system". this option will update your navigation system with the map you choose. as of today, i have had a few problems with naviextras toolbox when using the option to "update map". the following message appears and i have had to re-initialize the usb with the 5100nex to fix this problem. please let me know if you have experienced the same issue. i would appreciate it if you could let me know.

Naviextras Toolbox 3.18.5 Download
