you can shoot all the bad guys, but you cant hit the dog, the cat or the black thing. the black thing is the flying bat, a flying sheep with a spiked tail. once he starts flying, he cannot be stopped. if sven shoots him, he falls, but does not die. once he flies over the small white box, he will turn into a devil. when the sheep are happy, they look quite happy. if the sheep are unhappy, they turn into angry sheep and will attack sven if he continues to approach them. if the sheep are angry, they will attack sven. the dog, the cat and the black thing will attack sven, but are not considered as enemies. you can even whistle to the sheep to cheer them up. this makes their happiness level rise. there are two types of sheep - the angry sheep (who will attack sven if he doesnt act promptly enough) and the romantic sheep (who will become more affectionate if sven makes a move on them). if the player is lucky enough, it is possible to satisfy all the sheep in the flock (more than 80% of them, in fact), although this will be difficult, considering that all of them will be in a state of anger for the most part of the game. the game is also quite difficult. the player will need to click on every single sheep to get them all to like him. however, the sheep dont like him immediatly. if sven is not careful, he will be eaten by the angry sheep. if he succeeds in winning their favor, he will be able to capture them and they will follow him. the romantic sheep are of more interest to sven, since they will fall in love with him if he shags them (they are more likely to be in a good mood, and will be less likely to attack sven if he fails to perform properly). however, to be able to shag them, the player will have to wait for them to be in a good mood. the number of sheep that can be captured is not fixed.
